

# Make your apartment building safer — with one simple addition.

Cardiac arrest doesn't wait for paramedics — and in high-rise buildings, minutes can mean the difference between life and death.

That's why more apartment blocks across NSW are installing defibrillators (AEDs) in lobbies, gyms, and shared spaces.

## FACTS YOU NEED TO KNOW

Survival drops by **10% every minute** without defib

Most cardiac arrests happen in homes and residential settings

AEDs are **easy to use** and **more affordable** than ever
